COSC 179 Programming Project          Winter 2011

Distributed 2/24/2011          Due: 3/3/2011

Specification:

Plot the data which was generated to solve the value of PI in the project 2/15/2011.

If the generated point is within the circle, color it red. If it is outside the circle, color it black.

Clearly label axes, give appropriate title, and legend.

Create this plot for 100 data points.

Turn in

Hard copy of code (may include code you used to solve 2/15/2011)
Demo
Hard copy of plot.

Note: you may turn in 2/15 project and 2/14 project together.
